SAMPLE COMPANY HANDBOOK

Document Loader Practice File

This fictional handbook is designed for practicing PDF loading, document extraction, metadata inspection, text splitting, and basic retrieval workflows with LangChain.

Company: Northstar Digital Solutions (fictional)

Version: 1.0 **Last updated:** November 2026

For educational and coding practice only. Not a real company policy.

1. About the Company

Northstar Digital Solutions is a fictional software company that builds web applications, data dashboards, and automation tools for small and medium-sized businesses. Its teams include software engineering, quality assurance, product design, data analytics, and customer support.

2. Working Hours and Attendance

The standard workweek is Monday through Friday. Normal office hours are 9:00 AM to 5:30 PM, with a one-hour lunch break. Employees should inform their team lead if they expect to arrive late or need to leave early. Remote-work arrangements must be agreed with the manager in advance.

3. Leave Guidelines

Employees should submit planned leave requests at least three working days in advance. Emergency leave should be reported to the manager as soon as reasonably possible. Leave approval depends on team coverage and project deadlines.

Annual Leave Summary

Leave Type	Annual Allowance	Notes
Annual leave	18 days	For planned personal time
Sick leave	10 days	May require documentation
Casual leave	6 days	For short personal matters

4. Information Security

Employees must use strong, unique passwords and must not share login credentials. Company devices should be locked when unattended. Confidential files must only be stored in approved company systems. Any suspected security incident should be reported to the IT team promptly.

5. Acceptable Use of Technology

Company computers, software accounts, and network access are provided primarily for work-related activities. Employees must not install unapproved software, bypass security controls, or use company systems for unlawful activities. Personal use should be limited and must not interfere with work responsibilities.

6. Communication and Meetings

Teams should use the official project management platform to track tasks and deadlines. Meeting invitations should include a clear title, agenda, and relevant documents. Meeting notes should record decisions, action items, owners, and due dates.

7. Learning and Development

Employees are encouraged to spend time improving technical and professional skills. Learning goals may include programming, cloud platforms, communication, testing, data analysis, or project management. Managers and employees should review progress during regular check-ins.

8. Frequently Asked Questions

Q: Who approves planned leave?
A: The employee's direct manager approves planned leave requests.

Q: What should I do if I suspect a security issue?
A: Report it promptly to the IT team and avoid sharing sensitive details in public channels.

Q: Can I install any software on my work laptop?
A: No. Software installation must follow the company's approval process.
